

Air 1 is the only radio station in my area that offers Christian music for me and my children. This is the only type of lyrics I want my young children to be influenced by, lyrics that offer sex and drinking are not acceptable. There are many in my community that listen to this non profit station for the same reason my family does and it would a great disservice to remove it since it is the only one of its type in the area.

Air 1 offers families the positive lyrics and disc jockeys who encourage positive radio talk verses the talk of other nonreligious stations, especially for families who hold their same values. All types of choices need to be available to families in music listening.
